The calamity of 2021 had been the capsizing of an iceberg that had become top-heavy when too much~ of the stabilizing mass that belonged at its base had tried to climb above its center of gravity. The war had been the price of allowing shopkeepers to posture as statesmen, factory foremen as industrialists, and diploma-waving bohemians as thinkers, of equating rudimentary literacy with education and simpleminded daydreaming with proof of spiritual worth. If you really want to know about Preston Claudius Maddoc,. With all public bars having been put off-limits to the Mayflower IIs soldiers after the shooting, the party couldn't have come at a better time, Colman reflected as he leaned against the bar and nursed his glass while gazing around the room. Swley and Stanislaw were behind him in a corner with a mixed group of Chironians and seemed interested in the planet's travel facilities; Sirocco was with another group in the center of the room discussing the war news with another group, and Maddock, looking slightly disheveled, was sprawled along a couch in an alcove on the far side with his arm draped around Wendy, another girl from the Mayflower II, who seemed to be asleep. It was especially nice to get away from the political row that had been splitting the Mission into factions ever since the morning after the shooting. Kalens wanted to impose Terran law on Franklin, Lechat wanted everybody to move to Iberia, somebody called Ramisson wanted to disband Congress and phase into the Chironian population, and somewhere in the middle Wellesley was trying to steer a course between all of them. At one extreme some people were ignoring the directive to remain in the Canaveral area and moving out, while at the other some were supporting Kalens by staging anti-Chironian demonstrations with demands for a get-tough policy. Padawski and the group who had been with him at The Two Moons, including Anita, were being confined to the military base at Canaveral pending a hearing of the charges of disobeying orders and disorderly conduct. In addition Ramelly had been charged with assault, and Padawski with failing to uphold discipline among members of his unit as well as with publicly issuing threats. The threats were the main reason for Padawski's group being confined to base, since some politicians were worried about possible reactions from the Chironians if they were allowed out and about. Colman couldn't see any risk of retaliation, since none of the Chironians that he had talked to attached any great significance to the incident. He only wished more of the politicians would see things the same way instead of blowing the incident out of proportion to suit their own ends. If they had stayed out of the situation and left the Army to deal with its own people in its own way, the whole thing would probably have been forgotten already, he thought to himself.. "Let's hope they don't waste any time," Brad replied. "Stern's setting up a missile strike in there right at this moment-a big one.". by eating two pieces of pie. The truth? which she had promised God always to honor, but which. MRS. GRAYFORD, THE plump, extravagantly dressed wife of Vice-Admiral Crawford, Slessor's second-in-command of the Mayflower H's crew, closed the box containing her new set of Chironian silver cutlery and added it to the pile of boxes on the table by her chair. Among other things the jumble included some exquisite jewelry, an inlaid chest of miniature, satin-lined drawers to accommodate them, a set of matching animal sculptures in something not unlike onyx, and a Chironian fur stole. "Where we'll end up living, I've no idea, but I'm sure these will enhance the surroundings wherever it is. Don't you think the silver is delightful? I'd never have thought that such unusual, modern styling could have such a feel of antique quality, would you? I must return to that place the next time I go down to Franklin. Some of the tableware there went with it perfectly.". "I guess I'm not in Kansas anymore.". Juanita saw the expressions on Bernard's and lay's faces. "Are you claiming that we're any more violent or barbaric than your societies? We've never had a war. We've never dropped bombs on houses full of people who had nothing to do with the argument. We've never burned, maimed, blinded, and blown arms and legs off of people who just wanted to live their lives and who never harmed anybody. We've never shot anyone who didn't ask for it. Can you say the same? Okay, so the system's not perfect. Is yours?". Constance Veronica Tavenall-Sharmer, wife of the media-revered congressman who disbursed payoffs. strike force. If the killers track him. "We lived in San Francisco then.". Bernard noticed several young girls who couldn't have been much more than Marie's age wheeling or carrying babies, before he registered with a jolt that the babies were probably their own. Mixed with the shock of the realization came a twinge of relief that he had left lean and Marie at home. Explaining this was going to require some delicate handling. And the way Jay was eyeing the Chironian girls Spelled more trouble in store farther along the line. In some ways, looking back, the simple and orderly pattern of life aboard the Mayflower II had had its advantages, he was beginning to realize.. saddles to a rodeo or a show arena. They might have become part of the net that is closing around him.. Wellesley turned pale, and the veins stood out on his temples. "I deny that! I also deny that you urged segregation. "Brandy and milk," Micky said, and at once Leilani, who was not drinking coffee, suggested, "Milk, ". shadow and fed on darkness.. "How do you mean, Jerry?" Lechat asked across the table. He was a slightly built man of average height, in his late forties, with thinning hair and a dry, pinkish complexion. He tended to red at the nose and the cheeks in a way that many would have considered indicative of a fiery temperament, but this was totally belied by his placid disposition and soft-spoken manner.. "Was that why those guys took off?" Jay asked, by now having regained most of his color. "It probably had something to do with it," Colman said, grinning. "That's the kind of trash you have to deal with. Still interested?". came at hand; half measures were fatal. The shorter-term price to be paid was regrettable, but when had Nature ever offered free lunches? And in the longer term, what did it mean anyway? The Soviets had taken twenty million casualties in World War II and emerged to fight World War III three-quarters of a century later. And in that conflict the U.S. had lost an estimated hundred million, yet had restored itself as a major power in less than half the time. At best the sentimentalities of politicians and misguided idealists underestimated the resilience of the race, and at worst, by tempting aggressors with the lure of easy pickings, precipitated the very wars that they deplored. Would Hitler have rampaged so blithely across Europe if Chamberlain had gone to Munich with ten wings of heavy bombers standing behind him across the English Channel? And when all the hackneyed words were played and spent, hadn't everything worthwhile in history been gained in the end by its generals?. bathroom break, they are intent on getting away from flying bullets.. "A lot of people could get hurt before they give up though," Lechat persisted.. haloed by red lamplight, glittery-eyed with excitement. "Thingy, him a hard-ass stubborn little crawly. Three obstacles now remained between Kalens and the vision that he had nurtured through the. years of presiding over the kind of neofeudal order that would epitomize his ideal social model. First there was the need to ensure his election to succeed Wellesley; but Lewis was

coordinating an effective media campaign, the polls were showing an excellent image, and Kalens was reasonably confident on that score. Second was the question of the Chironians. Although he would have preferred Borftein's direct, no nonsense approach, Kalens was forced to concede that after six years of Wellesley's moderation, public opinion aboard the Mayflower II would demand the adoption of a more diplomatic tack at the outset. If diplomacy succeeded and the Chironians integrated themselves smoothly, then all would be well. If not, then the Mission's military capabilities would provide the deciding issue, either through threat or an escalated series of demonstrations; opinions could be shaped to provide the justification as necessary. Kalens didn't believe a Chironian defense capability existed to any degree worth talking about, but the suggestion had potential propaganda value. So although the precise means 'remained unclear, he was confident that he could handle the Chironians. Third was the question of the Eastern Asiatic Federation mission due to arrive in two years' time. , With the first two issues resolved, the material and industrial resources of a whole planet at his disposal, and a projected adult population of fifty thousand to provide recruits, he had no doubt that the Asiatics could be dealt with, and likewise the Europeans following a year later. And then he would be free to sever Chiron's ties to Earth completely. He hadn't confided that, part of the dream to anyone, not even Celia.,don't deserve the same respect as law-abiding citizens.
