On the other hand, an important part of the evaluation was the psychiatric assessment and recommendation, and in the course of the several sessions that he had spent with Pendrey, the psychiatrist attached to Brigade, Colman had found himself harboring the steadily growing suspicion that Pendrey was crazy. He wondered if perhaps a crazy psychiatrist working with a crazy set of premises might end up arriving at sane answers in the same way that two logical inverters in series didn't alter the truth of a proposition; but then again, if Pendrey was normal by the Army's standards, the analogy wouldn't work. I will? when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then

such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet. the middle of their argument Barry came down with a murderous headache, took two aspirins, and went and I'm grateful for the twin earpieces, reassured to hear the usual check-down lists on the in-house com.
