It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep. Rose nodded. She asked nothing and he said no more. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that. where the paths seemed never to be quite where she remembered them, and often led on far beyond. others they said, "Ember can tell you." Dr. Abs, on the other hand, and. The first thing she thought was a king, a lord, Maharion of the songs, tall, straight, beautiful. The next thing she thought was a beggar, a lost man, in dirty clothes, hugging himself with shivering arms. He never swore- men of power do not swear, it is not safe- but he cleared his throat with a coughing growl, like a bear. A moment later a thunderclap rolled off the hidden upper slopes of Gont Mountain, echoing round from north to south, dying away in the cloud-filled forests. All spells use at least a word of the Old Speech, though the village witch or sorcerer may not. But seeing no slope or stair downward as he came to the lip of the broken roof of the cavern, he. The first test is the great test, Dragonfly," he said. Every night he lay alone in this cabin he had planned this conversation. "To enter the Great House: to go through that door." furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her. The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach- which may have been the easternmost borders of their own realm- for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles. asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed. seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Alking's realm. He never noticed that his prisoner's dreams had escaped him. you had to do with a good

hard-packed clay floor was sweep it and now and then sprinkle it to keep. He was still shaken, appalled, by the ease with which Gelluk had forced him to say his name, which gave the wizard immediate and ultimate power over him. Now he had no hope of resisting Gelluk in any way. That night he had been in utter despair. But then Anieb had come into his mind: come of her own will, by her own means. He could not summon her, could not even think of her, and would not have dared to do so, since Gelluk knew his name. But she came, even when he was with the wizard, not in apparition but as a presence in his mind. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse knew why he had never sought reconciliation with his father. . . up ten feet tall and struck Sunbright into a lump of coal with lightning, before foaming at the. Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So much for good manners, he thought. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading. Silence looked stricken. "Was he your friend?"
