The changes that the computers had detected were tiny--the merest beginnings of a trend which, if it continued at the present rate, wouldn't approach anything serious for a month or more. With only another three months to go before the ship reached Chiron there was no cause for alarm since the rest of the pump-group had enough design margin to make up the difference even without the backup. But even so, there was little doubt that Merrick would insist on the primary's being stripped down to have its bearings reground, alignment rechecked, and rotor rebalanced again. They had been through that routine twice already in the three months that the main drive had been firing. That meant another week of working in near-zero g and klutzing around in heavy-duty protective suits on the wrong side of the stern radiation shield. beside the bed, gripping it with a sweaty hand. His entire body was wet. The grey man looked back over his shoulder, but all he saw were the bright colors of the garden. "Are you in command today, then?" I asked. Lane Yolen's classic fantasy tales have been appearing in F&SF since 1976. She is the author of many fantasy story collections, one of which (The Girl Who Cried Flowers) was a National Book Award finalist. So he lay down on the bed and Hinda sat by him. She rubbed cinquefoil on his head to soothe it and swollen purple face. It's always there, so you never get around to it. "I've tried living with you," Amanda said, "but it doesn't work. Now I won't have anything more to do. That hardly seemed fan' to me. As though she read my mind, Selene said, "I didn't plan it; it just. and pushed his damp hair back out of his eyes. Detweiler's expression was euphoric. He sighed softly. She nodded in disapproval. "Mr. Bloomfield called." "We were provided for," Mary Lang said quietly. "They knew we were coming and they altered their plans to fit us in." She looked back to Singh. "It would have happened even without the blowout and the burials. The same sort of thing was happening around the Podkayne, too, triggered by our waste; urine and feces and such. I don't know if it would have tasted quite as good hi the food department, but it would have sustained life." The last step took the thin grey man right into the open trunk. He cried out, stumbled, the trunk sitting cross-legged on the floor nursing her youngest, Ethan. skilled labor. I figure that as a bricklayer I can get on easy. around through a random maze, going through more gates that opened when they neared them. That's what got me the job with Alpertron, Ltd., die big promotion and booking agency. I'm on the concert tour and work their stim board, me and my console over there on the side of the stage. It isn't that much different in principle from playing one of the instruments in the backup band, though it's a hetL of a lot more complex than even Nagami's synthesizer. It all sounds simple enough: my console is the critical link between performer and audience. Just one glorified feedback transceiver: pick up the empathic load from Jain, pipe it into the audience, they react and add their own load, and I feed it all back to the star. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. "I want the action." He turned toward the suitcase, his back to me. The hump was artificial, made of something like foam. 150. not work, the glamor fades, the sublime aristocrats turn silly, the profundities become simplifications, and. She was quiet for a long time, then shuffled her feet awkwardly. She glanced at him, then at Song and. Amos began to whisper through the bars. Behind them the jailor snored on his piece of canvas. "Okay, okay. She's a lovely girl, Rob. And like you say, she's the star." "So what about the crude?" Ralston asked. He didn't completely believe that part of the model they had evolved. He was a laboratory chemist, specializing in inorganic compounds. The way these plants produced plastics without high heat, through purely catalytic interactions, had him confused and defensive. He wished the crazy windmills would go away. The end result will be that though my clones, or some of them, might turn out to be valuable citizens
